

# “If you have a superior safety

and health management

system for your

employees...

or you'd like to

build one... OSHA's

## **Voluntary Protection Programs**

is the

**best** vehicle  
available.”

John L. Henshaw

*Assistant Secretary of Labor for  
Occupational Safety and Health*

# You Want It All!

➤ **Fewer Injuries  
and Illnesses**

➤ **Greater  
Productivity**

➤ **Higher  
Profits**

➤ **National  
Recognition for  
Safety and Health  
Excellence**

Safety and Health Add Value  
To Your Business  
To Your Workplace  
To Your Life

U.S. Department of Labor

**VPP**

VOLUNTARY  
PROTECTION  
PROGRAMS

What will VPP do for me?

## Add Value ...

### Boost your bottom line ...

- ★ Reduce worker injuries and illnesses, and slash workers' compensation costs.
- ★ Improve employee morale and increase productivity.
- ★ Build and strengthen your safety and health management system.
- ★ Gain recognition for being among the Nation's best in worker safety and health.

Are the results clear?

## Absolutely ...

### VPP participants say...

- ★ "...VPP has not only improved our safety and health, but also has improved our overall employee morale and made us a more competitive business."

*Brian Bennett, Safety Manager,  
Akzo Nobel Polymer Chemicals LLC,  
Edison, NJ*

- ★ "...the ultimate team experience...the most rewarding accomplishment in my professional career ... a symbol of pride for the employees, the company and the community."

*Randy Wilson, Plant Manager,  
George Weston Bakeries, Inc.,  
Placentia, CA*

How do I qualify?

## Focus on Excellence ...

### It's worth the effort ...

- ★ You establish an outstanding safety and health management system that meets OSHA standards and VPP requirements.
- ★ With the support and involvement of employees, you apply for VPP.
- ★ OSHA verifies that your safety and health management system meets VPP criteria.
- ★ You celebrate and publicize your achievement.

Where do I start?

## Call Us...

An OSHA regional VPP manager is looking forward to talking with you ...

- ★ Just dial 800-321-OSHA and ask to be connected to the OSHA regional office for your area. Or visit us online at [www.osha.gov](http://www.osha.gov).
